

List of Telecommunications Standards Adopted/Under Preparation in Hong Kong, China (July 2025 to December 2025)

Issued by: Office of the Communications Authority
29/F Wu Chung House, 213 Queen's Road East,
Wanchai, Hong Kong.

1. List of New/Revised HKCA Specifications¹ Adopted from July 2025 to December 2025

HKCA Specification	Title of the Specification	International Classification of Standards²	International Standards Under Reference	International Harmonized Stage Code³
HKCA 1081 Issue 2	Performance Specification for Radiocommunications Apparatus Operating in the 6 GHz Band for Wireless Local Area Network	33.060.01 Radiocommunications in general	ETSI EN 303 687	60.60 International Standard published
HKCA 1085 Issue 1	Performance Specification for New Radio (NR) User Equipment	33.070.01 Mobile services in general	ETSI EN 301 908-1 ETSI EN 301 908-25 3GPP TS 38.521-1 3GPP TS 38.521-2 3GPP TS 38.521-3	60.60 International Standard published

2. List of HKCA Specifications under Consultation/Preparation by December 2025

HKCA Specification	Title of the Specification	International Classification of Standards ²	International Standards Under Reference	International Harmonized Stage Code ³
NIL				

Note:

1. Before the establishment of the Communications Authority (CA) on 1 April 2012, the specifications prescribed by the Telecommunications Authority (TA) were named as HKTA specifications. From 1 April 2012 onward, revised versions of existing HKTA specifications and new specifications prescribed by the CA are named as HKCA specifications. For the avoidance of doubt, unless the specific issue number of the HKTA specification is explicitly specified, reference in any document to HKTA specification shall be construed as including reference to the corresponding HKCA specification as may be revised from time to time. In addition, reference in any document to HKCA specification shall be construed as referring to the corresponding HKTA specification if the HKCA specification under reference is not yet present.
2. The classification of the telecommunications standards is based on the document “*International Classification for Standards 2015*” published by the International Organization for Standardization (ISO).
3. The method of indicating the progress of standardization is based on the document “*International Harmonized Stage Codes for Standards Development*” published by ISO.
