Notes: * Include Direct Dialing In lines, Facsimile lines and Datel lines.

@ Non-Exchange Lines include but are not limited to IP telephony services and wireless fixed telephony services. There were some adjustments to the figures as at May 2011 due to reclassification by some operators.

^ Prior to December 2007, the "exchange lines" statistics have included subscribers of IP telephony/voice-over-IP (VoIP) services reported by some operators. The compilation of IP telephony service subscribers under a separate item has resulted in a decrease in number of exchange lines in December 2007.

One of the operators has revised the metering method on the number of ends of Local Leased Line starting from December 2008 which resulted in the drop of total number of Local Leased Line in December 2008.

^^ The figures have been revised to reflect the adjustments filed by licensees.
