#### **4. Spectrum utilization fee payable if there is auction**

(1) Subject to section 5, if, on the expiration of the relevant period, there is more than one eligible bidder for the use of the spectrum, an auction is to be held to determine the spectrum utilization fee for the use of the spectrum.

(2) Only an eligible bidder for the use of the spectrum may participate in the auction.

(3) In the auction, the amount of a bid is to be at least the minimum amount of the spectrum utilization fee specified under section 6.

(4) Subject to subsection (5), the bidder with the highest bid in the auction is the successful bidder for the use of the spectrum, and the amount of that highest bid is the amount of the spectrum utilization fee payable by the bidder for the use of the spectrum.

(5) If, before the licence for the use of the spectrum is granted to the bidder with the highest bid in the auction, the Authority determines, under section 7(b), that the bidder is disqualified from participating in the auction, the auction is taken to have never been held—

(a) to determine that the bidder is the successful bidder for the use of the spectrum; and

(b) to determine the amount of the spectrum utilization fee payable by the bidder for the use of the spectrum.

#### **5. Spectrum utilization fee payable if there is no auction**

(1) This section applies if there is not more than one eligible bidder for the use of the spectrum—

(4) If, before the licence for the use of the spectrum is granted to the eligible bidder, the Authority determines, under section 7(b), that the bidder would be disqualified from participating in an auction to determine the spectrum utilization fee, subsection (3) is taken to have never operated—

- (a) to determine that the bidder is the successful bidder for the use of the spectrum; and
- (b) to determine the amount of the spectrum utilization fee payable by the bidder for the use of the spectrum.

**6. Secretary may specify minimum amount of spectrum utilization fee**
