

**Submission for the Consultation on Licensing Framework for
Third Generation Mobile Services**

Name / Organization: Stephen Brown

Date : 27 March 2000

Subject: thank you for your acknowledgement of my points.

Given that The Financial Times is now expecting the UK's group 3 auction to raise 10 billion pounds, your stance on not involving any financial payment in the process of awarding group 3 licences in Hong Kong looks increasingly inappropriate.

the fact is that, even to-day, there are three million plus men women and children who do not have a mobile phone in Hong Kong, revenue raised would go to help the less well off and disadvantaged who do not want a group 3 service, have no need for it or cannot afford it.

Your franchises, on UK experience, could well fetch, HK\$ 15 billion.....
