

HKCA 1076
ISSUE 1
JULY 2016

**PERFORMANCE SPECIFICATION FOR
DIGITAL MULTIPOINT RADIO EQUIPMENT
OPERATING IN THE 2.3 GHz BAND**

FOREWORD

1. This specification is prescribed under section 32D of the Telecommunications Ordinance (Cap 106) (“the Ordinance”) to set out the technical and evaluation requirements for digital multipoint radio equipment operating in the 2300 – 2390 MHz band (“the 2.3 GHz band”). Radiocommunications apparatus falling into the scope of this specification shall meet the stipulated requirements.
2. Under the Ordinance, the possession or use of any radiocommunications apparatus or any apparatus emitting radio frequency energy must be covered by an appropriate licence issued by the Communications Authority (CA) with the exception of those specifically exempted from licensing under the Ordinance, such as those covered by the Telecommunications (Telecommunications Apparatus) (Exemption from Licensing) Order.
3. At present, the Office of the Communications Authority (OFCA) operates a Hong Kong Telecommunications Equipment Evaluation and Certification (HKTEC) Scheme. Details of the HKTEC Scheme can be found in the information note OFCA I 421. Under the Scheme, suppliers or manufacturers of the radiocommunications apparatus may apply for certification of their apparatus against this specification. The application procedures for certification of radiocommunications apparatus can be found in the information note OFCA I 401. A prescribed label may be affixed to the equipment which has been certified. Details of the labelling arrangement can be found in the Standardisation Guide HKCA 3211.
4. The CA may amend any part of this specification as and when it deems necessary.
5. In case of doubt about the interpretation of this specification, the methods of carrying out the test and the validity of statements made by the equipment manufacturers or suppliers about the equipment, the decision of the CA shall be final.
6. The HKCA specifications and information notes issued by the CA can be downloaded from OFCA’s website at <http://www.ofca.gov.hk>. Enquiries about this specification may be directed to:

Senior Telecommunications Engineer,

AMENDMENT TABLE

Item	Issue No.	Paragraph	Description
1.	Issue 1 July 2016	All	First Release

CONTENT

- 1. SCOPE OF SPECIFICATION**
- 2. TECHNICAL REQUIREMENTS**
- 3. EVALUATION REQUIREMENTS**
- 4. REFERENCE**

1. SCOPE OF SPECIFICATION

This specification sets out the minimum performance requirements for digital multipoint radio equipment operating in the 2300 – 2390 MHz band (“the 2.3 GHz band”) (hereafter referred as “the equipment”).

2. TECHNICAL REQUIREMENTS

- 2.1 The equipment shall operate in the 2300 – 2390 MHz frequency range.
- 2.2 The equipment shall meet the technical requirements specified in ETSI EN 302 326-2 “Fixed Radio Systems; Multipoint Equipment and Antennas: Part 2: Harmonized EN covering the essential requirements of article 3.2 of the R&TTE Directive for Digital Multipoint Radio Equipment” published by the European Telecommunications Standards Institute.

3. EVALUATION REQUIREMENTS

Compliance of the equipment with the technical requirements shall be evaluated in accordance with the procedures specified in the standard given in clause 2.2 above.

4. REFERENCE

ETSI EN 302 326-2 “Fixed Radio Systems; Multipoint Equipment and Antennas: Part 2: Harmonized EN covering the essential requirements of article 3.2 of the R&TTE Directive for Digital Multipoint Radio Equipment”
