NETWORK CONNECTION SPECIFICATION
OF CALLING NAME DISPLAY (CNAM)
SERVICE FOR CUSTOMER PREMISES
EQUIPMENT (CPE) TO BE CONNECTED
BY DIRECT EXCHANGE LINE (DEL)
TO THE PUBLIC SWITCHED TELEPHONE
NETWORK (PSTN) IN HONG KONG
1. This specification is issued pursuant to Section 32D of the Telecommunications Ordinance (Cap. 106). This specification gives the technical requirements of customer premises equipment (CPE) to be connected to the direct exchange lines (DELS) of the Public Switched Telephone Networks (PSTNs) in Hong Kong for the support of the calling name display service.

2. DEL may be provided by any one of the FTNS operators in Hong Kong. The general technical characteristics of the FTNS networks are given in HKTA 2201. Supplementary information on network characteristics and services of the FTNS networks may be obtained direct from the operators. Contact information of the FTNS operators can be found in the information note OFTA I 412. For the purpose of certification, CPE supporting the calling number display service for connection to the PSTN shall comply with this specification.

3. At present, the Office of the Telecommunications Authority (OFTA) operates a Hong Kong Telecommunications Equipment Evaluation and Certification ("HKTEC") Scheme. Details of the HKTEC Scheme can be found in the information note OFTA I 421. Under the Scheme, suppliers or manufacturers of CPE may apply to OFTA for certification of their equipment against this specification. The application procedures for certification of CPE can be found in the information note OFTA I 412. A prescribed label may be affixed to the equipment which has been certified by the Telecommunications Authority (TA). Details of the labelling arrangement can be found in the Standardisation Guide HKTA 3211.

4. The TA may amend any part of this specification as and when he deems necessary.

5. In case of doubt about the interpretation of this specification, the methods of carrying out the test and the validity of statements made by the manufacturers of the equipment, the decision of the TA shall be final.

6. The TA accepts no responsibility for the satisfactory performance of CPE connected to its network. CPE is not normally evaluated against performance, reliability or quality-of-service parameters.

7. The HKTA specifications and information notes issued by the TA can be obtained through one of the following methods:-

   • downloading direct through the OFTA's Internet Home Page. The Home Page address is http://www.ofta.gov.hk;

   • making a request for hard copies to:
     
     Senior Telecommunications Engineer (Standards)  
     Office of the Telecommunications Authority  
     29/F, Wu Chung House,  
     13 Queen’s Road East,  
     Wanchai,
Hong Kong.

Fax: +852 2838 5004
Email: standards@ofta.gov.hk

8. Enquiries about this specification may be directed to:-

   Senior Telecommunications Engineer (Standards)
   Office of the Telecommunications Authority
   29/F, Wu Chung House,
   213 Queen’s Road East,
   Wanchai,
   Hong Kong.

   Fax: +852 2803 5112
   Email: standards@ofta.gov.hk

1. SCOPE

2. TECHNICAL REQUIREMENTS

3. EVALUATION REQUIREMENT

4. HOW TO OBTAIN THE TECHNICAL SPECIFICATIONS

APPENDIX

1. Compliance List to GR-1188 - Calling Name Delivery Generic Requirements"

2. Basic Test Items
1. **INTRODUCTION**

This specification covers the technical requirements for customer premises equipment (CPE) to be connected to the direct exchange lines (DELs) of the public switched telephone networks (PSTNs) in Hong Kong for the support of the calling name display service.

2. **TECHNICAL REQUIREMENTS**

CPE designed to provide calling number display services shall comply with the following specifications:-

- HKTA 2012 - Network Connection Specification of Calling Number Display Service for Customer Premises Equipment (CPE) to be Connected to the Public Switched Telephone Network (PSTN) in Hong Kong

- Telcordia Technologies specification GR-1188 - Calling Name Delivery Generic Requirements (refer to Appendix 1 for detailed compliance)

3. **EVALUATION REQUIREMENT**

CPE shall comply with technical requirements in Clause 2 and shall have received a test report covering the basic test items for calling name display service given in the Appendix 2 for certification by the TA.

4. **HOW TO OBTAIN THE TECHNICAL SPECIFICATIONS**

4.1 To obtain the HKTA series of specifications issued by the Telecommunications Authority, please refer to paragraph 9 in the Foreword of this document.

4.2 The Telcordia Technologies specifications are available from the URL address at http://www.telcordia.com/.
