

To:

Dear ,

RE: Direct Interconnection between

We are writing to confirm our previous discussions regarding the direct interconnection for voice mobile traffic between the networks of and . Both parties agree to have a prior to the finalisation of a formal direct interconnection agreement which is being discussed by both parties. Based on the following understandings , both parties agree to proceed the interconnection arrangement not later than :

1. Both and shall arrange their own quantity of transmission circuits (leased E1 or T3) in accordance with agreed capacity requirements to receive voice traffic from the other party's mobile switches.
2. Both and agree to have a minimum traffic volume commitment on per E1 base. For every outgoing E1 circuit directly connected to the other party, the originating party has to send a minimum of 13,333 erlang (800,000 minutes) to the terminating party per calendar quarter.
3. The traffic receiving party shall arrange sufficient switch capacity to cater for the maximum capacity of incoming circuits to terminate incoming voice calls.
4. Reconciliation of bilateral mobile traffic is to be conducted . For any imbalance traffic and shortfall of the minimum traffic requirement per E1 circuit, the party sending less than the required minimum traffic per E1 circuit is required to make up the shortfall in the next calendar quarter.
5. The term for the interconnection will be at least 24 months.
6. Both parties agree to execute the formal direct interconnection agreement within months from the date of this letter.

Yours faithfully
For and on behalf of
